THE ENGLISH AND EMPIRE DIGEST

COMPREHENSIVE INDEX

PUBLISHERS' ANNOUNCEMENT

THE Publishers believe that this Index will be a revelation to users of the ENGLISH AND EMPIRE DIGEST of the infinite resources at their command; that its enormous scope and simplicity of user will enable them to turn with the minimum of trouble to the judicial decisions which will help to elucidate every problem which occurs in practice; that in a word, for the first time in legal history, it puts the case law of England and the Empire literally at their finger tips.

“Surely there is a case on that point?” is a question asked a thousand times by every Lawyer, and is perhaps the hardest to answer. In the COMPREHENSIVE INDEX to the ENGLISH AND EMPIRE DIGEST the Publishers claim to provide the answer on any and every occasion.

This Index has been prepared on the completest scale possible. Some idea of its scope may be gathered from the fact that nearly half a million cases have been analysed, and the essential facts and the *ratio decidendi* of each has been indexed under every relevant heading. The plan of the Index follows as closely as possible that of the GENERAL INDEX to HALSBURY'S LAWS OF ENGLAND, probably the best Index in the World, which has been largely used to check the entries in the present work.

The leading principles in the compilation of this Index have been as follows:—

FIRST, to ensure that every case is fully indexed in the simplest and most obvious place, and at the same time to see that it is also indexed or referred to in every other place in which the reader is likely to look. Thus the consultant does not need to consider first under which heading to look. If he will look under any heading which occurs to him he will find there either a direct reference to the case he wants or a signpost directing him to the heading under which the subject is completely indexed. Copious use has been made of cross-references to achieve this purpose.

SECONDLY, to ensure that every entry in its opening words hits off the essential point of law or fact which distinguishes one case from the next. The **COMPREHENSIVE INDEX** aims at guiding the reader not merely to the general line of cases illustrating a legal principle but to the actual case which matters, the case on all fours with his own.

THIRDLY, plain objective headings have been very fully employed; thus "Corn," "Cottage," "Dentist," "Frost," "Journalist"; providing the shortest of short cuts to the required information, though the cases under such headings will naturally be also indexed under more general headings.

FOURTHLY, every effort has been made to collect under headings dealing with general principles the cases under every branch of law in which such principles have been applied. Instances of such will be found under "Attornment," "Avoidance," "Caveat Emptor," "Compensation," "Damages," etc.

FIFTHLY, judicial definitions of words and phrases have been the subject of very special care. The heading "Words and Phrases" contains an absolutely unrivalled collection of expressions which have been the subject of judicial construction, and in addition the entries under other headings bring out forcibly the particular words upon which the case turned.

The headings under which the Index is arranged are in the strictest alphabetical order with no deviation of any kind. Thus, after the simple word "Cross" come the words "Cross-Action," "Cross Examination of Witnesses," "Cross-Executory Limitation," "Crossing," "Crossing Rule," and "Cross-Remainder," no notice being taken of whether the heading consists of a single or hyphenated word or of two or more words. The single entries under the headings are also arranged alphabetically.

The Publishers confidently commend the **COMPREHENSIVE INDEX** to users of the **ENGLISH AND EMPIRE DIGEST** as a work of unique practical utility.
